

Program to Increase Diversity in Behavioral Medicine & Sleep Disorders Research

National Institutes of Health (NIH-Funded)
National Heart, Lung and Blood Institute (NHLBI- Funded)

JULY 19 — AUGUST 1

SUMMER 2015

Approach

The institute includes:

- Providing fundamental training by interdisciplinary faculty in the area of behavioral medicine and sleep disorders,
- Establishing partnerships between mentors and mentees based on their mutual research interests in the areas of behavioral medicine and sleep disorders research
- Helping mentees develop skills needed in order to develop independent research interests and apply for independent research grants
- Providing grants workshop conducted by NHLBI staff to promote a sustainable independent research career

Eligibility

The institute provides funding to support travel and accommodations for up to 12 mentees. To be eligible to participate, you must be:

- A junior-level faculty member
- Of a race and/or ethnicity that is under-represented and/or have a disability.
- A United States Citizen or a Permanent Resident

P.R.I.D.E. Training and Mentoring Institute

Overview

The PRIDE Summer Institute on Behavioral Medicine and Sleep Disorders Research is a research-career advancing opportunity at NYU Langone Medical Center that is funded by the National Heart, Lung, and Blood Institute (NHLBI). The PRIDE Summer Institute will provide intensive didactic and mentored research training to underrepresented minority, as defined by the NIH, and those with disability engaged in behavioral medicine and sleep disorders research. The goal of this multidisciplinary training and mentoring program is to inspire mentees to conduct research by employing techniques at the forefront of their fields.

Be a part of decreasing health disparities in the field of behavioral medicine and sleep disorders research!
